Portfolio: hussain-portfolio-mern-v1.vercel.app

EDUCATION

COMSATS University Islamabad, Lahore   **2025 – 2029**
Bachelor of Science in Computer Science (2nd Semester) (CGPA: 3.42)   *Lahore, Punjab*

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C++, Java, Python

MERN Stack: MongoDB, Express.js, React.js, Node.js, Next.js

Styling & Tools: Tailwind CSS, Bootstrap, VS Code, Git/GitHub, Postman

Core Concepts: DSA, OOP, DBMS, Software Engineering

EXPERIENCE

Dev Weekend Fellowship (Bronze Level)   **July 2025 – Oct 2025**
MERN Stack Developer   *Remote*

– Selected among top 70 fellows out of 800+ participants globally.

– Developed full-stack applications using the MERN stack (MongoDB, Express, React, Node).

– Participated in intensive training on Data Structures & Algorithms (DSA).

Fellow At Dev Weekend   **July 2025 – Oct 2025**
Full Stack Developer Trainee   *Remote*

– Completed a 3-month intensive coding bootcamp focusing on modern web technologies.

– Built 4 major projects including an LMS, E-Commerce store, and Real-time Game.

– Strengthened problem-solving skills through weekly coding challenges.

PROJECTS

Sheep Academy (LMS) | *Next.js, TypeScript, MongoDB, Stripe*   **Dec 2025**

– Built a comprehensive Learning Management System with role-based access.

– Features: Course creation, video streaming, student progress tracking, and payments.

– Integrated Redis for session management and performance optimization.

– **Live Link:** https://sheep-academy-v1.onrender.com/

SHIPPO E-Commerce | *MERN Stack (Mongo, Express, React, Node)*   **Sep 2025**

– Developed a multi-vendor platform allowing vendors to manage inventory and orders.

- Implemented secure authentication, product search, and responsive dashboard.

  - **Live Link:** https://multi-vendor-shippo-1.onrender.com/

Real Estate Platform | *MERN Stack*   **Aug 2025**
  - Created a property listing engine with advanced search filters and image handling.

  - Built RESTful APIs for property management and user profiles.

  - **Live Link:** https://mern-real-estate-9rpz.onrender.com/

Real-Time Chess Game | *Socket.io, Chess.js, Node.js*   **July 2025**
  - Engineered a multiplayer chess game featuring live move synchronization via WebSockets.

  - Supports spectator mode and instant game state updates.

  - **Live Link:** https://chess-game-gebt.onrender.com/

CERTIFICATIONS & CODING PROFILES

- **Dev Weekend Fellowship:** Bronze Level Certified MERN Developer (2025)

- **Udemy:** C++ Programming & JavaScript Algorithms

- **Coding Profiles:** LeetCode (hussain_Jamal)

EXTRACURRICULAR

- Taught C++ and Data Structures basics in offline sessions (Mar 2025 – June 2025).

- Active peer mentor during the fellowship program.
