EDUCATION

COMSATS University Islamabad , Lahore   **2025 − 2029**
*BS - Computer Science - **CGPA** - 3.42*   *Lahore, Punjab*

EXPERIENCE

Dev Weekend Fellowship (Bronze Level)   **July 2025 - October 2025**
Role - MERN Stack Developer   *Remote*

- Selected among top 70 fellows out of 800+ participants from 5 countries and achieved Bronze Level certification.

Built multiple full-stack web applications using MongoDB, Express.js, React, and Node.js (MERN)

Attended training sessions on **MERN and DSA.**

Fellow At Dev Weekend ↗   **July 2025 - October 2025**
Role - MERN stack Developer   *Remote*

- Strengthened **Data Structures & Algorithms (DSA)** skills through weekly coding challenges and problem-solving sessions
- Built and deployed **three full-stack MERN projects**:

  – **Real-Time Multiplayer Chess Game:** Implemented with **Socket.io** and **Chess.js**, featuring live matches and spectator mode.

  – **Multi-Vendor E-Commerce Platform:** Developed **vendor dashboards**, **authentication**, and **order management** using **Express.js** and **MongoDB**.

  – **Real Estate Platform:** Created **property listings**, **user profiles**, and **search filters** with responsive **React UI** and secure **backend APIs**.

- Collaborated closely with mentors in a **3-month intensive learning program**.
- Implemented user authentication, search functionality, Deployment for ranking answers.
- Handle the Database and created a responsive MERN Projects using REACT , NODE , EXPRESS , MONGODB , CLOUDINARY

PROJECTS

Multi-Vendor E-Commerce Platform – SHIPPO ↗ | MongoDb , Express , React , Node   **Sep 2025**

- Developed a complete multi-vendor e-commerce system enabling vendors to manage products, orders, and dashboards.
- Developed a complete multi-vendor e-commerce system enabling vendors to manage products, orders, and dashboards. Developed a complete multi-vendor e-commerce system enabling vendors to manage products, orders, and dashboards..

Real Estate Platform ↗ | MongoDB, Express.js, React, Node.js   **Aug 2025**

- Created a property listing platform where users can add, update, and view real estate listings with filters and search options.
- Created a property listing platform where users can add, update, and view real estate listings with filters and search options.
- Integrated RESTful APIs for efficient backend operations and ensured fully responsive front-end for all devices.

Real-Time Multiplayer Chess Game ↗ | Socket.io, Chess.js, Express.js,, Node.js   **July 2025**

- Built a real-time multiplayer chess game with live matches, spectator mode, and instant move sync using Socket.io and Chess.js.
- Designed a responsive React UI and integrated Express.js backend for smooth two-player communication.
- Deployed the project on Render, ensuring seamless gameplay and low-latency performance.

TECHNICAL SKILLS

Languages: C++, JavaScript, Java , Python
Technologies/Frameworks: React , Node , MongoDB, Express, Javascript, Bootstrap ,Tailwind
Developer Tools: VS Code, Git GitHub, Render, PyCharm , Intellij

CERTIFICATIONS

- Dev Weekend Fellowship (Bronze Level) – Full-Stack MERN Development (2025)
- C++ - Udemy
- JavaScript - Udemy

EXTRACURRICULAR

- Taught basic C++/DSA in offline Mode. 03-2025 – 06-2025
- Actively contributed to peer mentorship and coding discussions during the Dev Weekend Fellowship
